Your answer

This is a required question

Does a subclass inherit both member variables and methods? *

A. No—only member variables are inherited.

B. No—only methods are inherited.

C. Yes—both are inherited.

D. Yes—but only one or the other are inherited.

What method of an Exception object returns a message string? *

a. getError()

b. getMessage()

c. printMessage()

d. traceMessage()

Which of the following is not a wrapper class? *

- ☐ String
- ☐ Integer
- ☐ Boolean
- ☐ Character

Given the following code *

```
public class test10  
{ public static void main(String args[])  
  
  { int x,y;  
  
  y=10;  
  
  }}
```

On Compilation of above code

- ☐ Local variable y might not have been initialized
- ☐ No Error
- ☐ Local variable x might not have been initialized
- ☐ Local variable x initialized but not declared.

Which declarations of main() method are valid in order to start the execution of an application? *

- ☐ public void main(String args[])
- ☐ public void static main(String args[])
- ☐ public static main(String args[])
- ☐ public static void main(String args[])

What is the result of compiling and running the following code?

```
public class Tester  
{  
    static void test(int[] a)  
    {  
        int[] b = new int[2];  
        a = b;  
        System.out.print(b.length);  
        System.out.print(a.length);  
    }  
    public static void main(String[] args)  
    {  
        int[] a = new int[5];  
        test(a);  
        System.out.print(a.length);  
    }  
}}
```

- ☐ 225
- ☐ 255
- ☐ 200

Which of the following declarations of an array is incorrect?

```
public static void main(String[] args) {
```

- a) `int[] a[];`
- b) `int b[3];`
- c) `int []c[];`
- d) `int[] d[];`

```
}
```

- ☐ a
- ☐ b
- ☐ c
- ☐ d

What is the result of compiling and running the following code?

```
public class Tester  
{  
    public static void main(String[] args) {  
        System.out.print("1");  
        try {  
            System.out.print("2");  
            System.exit(0);  
        } finally { System.out.print("3"); }  
    }  
}
```

- ☐ 123
- ☐ 12
- ☐ Compilation error , there should be at least one catch before finally

Which of the following is a correct instantiation for a BufferedWriter?

- ☐ `BufferedWriter bw = new BufferedWriter(new File("data.txt"));`
- ☐ `BufferedWriter bw = new BufferedWriter(new FileWriter("data.txt"));`
- ☐ None of these
- ☐ `BufferedWriter bw = new BufferedWriter("data.txt")`

What is the result of compiling and running the following code?

```
public class Tester {  
  
    static void test(float x) {  
  
        System.out.print("float");  
  
    }  
  
    public static void main(String[] args) {  
  
        test(99.9);  
  
    }  
}
```

- ☐ float
- ☐ Compilation fails
- ☐ An Exception is thrown at run time
- ☐ none of these

The following Syntax is used for?

*

```
class Subclass-name extends Superclass-name  
{  
//methods and fields  
}
```

- ☐ a. Polymorphism
- ☐ b. Encapsulation
- ☐ c. Inheritance
- ☐ d. None of the above

What is known as the classes that extend Throwable or Exception class

- ☐ a. Checked Exception
- ☐ b. Unchecked Exception
- ☐ c. Error
- ☐ d. None of the above

Under which package is the string class encapsulated? *

- ☐ a. java.lang
- ☐ b. java.util
- ☐ c. [java.io](#)
- ☐ d. java.awt

Which method is used in thread class to starts the execution of the thread?

- ☐ a. public void start()
- ☐ b. public void run()
- ☐ c. public void stop()
- ☐ d. public void suspend()

What is meant by JIT?

- ☐ a. Java In Time compiler
- ☐ b. Just In Time compiler
- ☐ c. Join In Time compiler
- ☐ d. None of the above

**In which the access modifier means that the field can be accessed by all classes *
in your application?**

- ☐ a. private
- ☐ b. Public
- ☐ c. Package
- ☐ d. Protected

The life cycle of the thread is controlled by ? *

- ☐ a. JVM
- ☐ b. JDK
- ☐ c. JRE
- ☐ d. None of the above

Which is a technique in Java in which a class can have any number of constructors that differ in parameter lists?

- ☐ a. Constructor overloading
- ☐ b. Method overloading
- ☐ c. Operator overloading
- ☐ d. None of the above

Which keyword is used for the block to handle the exceptions generated by try block? *

- ☐ a. Catch
- ☐ b. Final
- ☐ c. throw
- ☐ d. try

Which keyword is used by classes to implement an interface? *

- ☐ a. import
- ☐ b. implements
- ☐ c. instance of
- ☐ d. None of the above
